

Falcon Collection by Namiki

Soar to new writing heights with the Namiki Falcon. Sleek in its unique style, this jet black fountain pen is a remarkable feat of engineering and elegance. The Namiki Falcon's most extraordinary feature is its flexible, "hooded" nib that gently yields to the user's writing angle. The nib was designed by our engineers with input from the association of pen shop owners in Japan who recommended a soft, flexible writing feel. This group subsequently endorsed the product. Available as a fountain pen with a 14 karat gold nib in soft fine, medium or broad. Each pen is packaged and merchandised in a black gift box.
